VAPING

#ENDTEEN  
VAPINGFL!

## **YOUR BRAIN IS STILL DEVELOPING**

Vaping nicotine before 25 rewires your brain to intensify your addiction.

## THE LONG-TERM EFFECTS OF VAPING ARE **UNKNOWN**

E-cigarettes have not been around long enough for us to know the harm they cause. You're the real-world experiment.

## E-CIGARETTE AEROSOL IS **NOT** WATER VAPOR

It contains metals, cancer-causing chemicals, ultrafine particles that can be inhaled deeply into your lungs and may be dangerous to your health.

If you or your friend needs help quitting, talk to your doctor or school nurse for more information.
